

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE.

SMALL in size as is the present volume, its pages—and they are not inconsiderable—will nevertheless, upon investigation, be found abundantly stored with information, alike serviceable to all classes of society. The intelligent reader, when informed that the British Metropolis alone now covers an area of nearly 48 square miles, a circumstance of which very few persons are aware, will readily admit the utility of a work that furnishes a knowledge of the means by which he is enabled, unfatigued, to thread its mazes in every direction, and accomplish objects that, from their distance in the absence of the Omnibus, would be altogether unattainable. An announcement of the fact that these conveyances collectively not unfrequently perform *three thousand* journies through the city in a day, will render evident the necessity that exists for a work on this subject. The present, constructed at no small cost, is the result of great labour, not a little enhanced by the difficulty of obtaining from the proprietors a clear and succinct account of their several concerns, and among whom, although, particularly among the associated members, there are many clever men, it is no libel to say that the majority of small proprietors having been more accustomed to the pitchfork than the pen, “to riding than writing,” have experienced no little difficulty in communicating even at a personal interview the facts necessary to elucidate the subject, a matter that imposed on the proprietor great labour the way of personal attendance. He has now, ever, the happiness of being enabled to lay befo

public a work, the utility of which it is impossible to deny, and trusts it will not fail to ensure a continuation of that patronage it has hitherto been his good fortune to experience. Yielding to the repeated solicitation of numerous patrons of his Hackney Coach Fares, he has annexed to a superior edition of that work a Plan of London; and for the more complete development of the subject, has added to his Omnibus Guide a Map of the Environs, that unfolds to the view the extent of country it embraces, and points out the situation of the many beautiful villages to which the body of the work shows the means of resorting, and also of returning therefrom. In conclusion, he has only to remark that the innumerable applications he has received upon the subject have induced to the belief that the contents of its pages have long been deemed a desideratum, and dismisses the work with the assurance that it has for some months occupied the best and undivided attention of the public's most devoted servant,

WOOLWICH, 9 from London Bridge. Land carriage conveyance between this town and London no longer exists; at least, is not maintained with the regularity it was wont to experience in the bygone times of coaching prosperity; the Blackwall and Greenwich Railways and river steamboats having literally ruined the road; the communication between Greenwich and Woolwich is now kept up by a branch Omnibus and Flies that run occasionally between the two. Steamboats start also, at stated periods, from Hungerford Market, and Old Swan Wharf, near London Bridge, for Greenwich and Woolwich; but the readiest way to reach the latter, which may now be accomplished in little more than half an hour, is by the Blackwall Railway, from the London station, of which, in Fenchurch Street, trains start every quarter of an hour for Blackwall, (performing the distance, $3\frac{1}{2}$ miles, in about 15 minutes,) and from whence Steamboats leave about every half hour for Woolwich.

INTRODUCTION.

THE Acts of Parliament last passed for the regulation of Hackney Carriages, viz. the 5th and 6th and 6th and 7th of Queen Victoria, present perhaps as imperfect specimens of legislation as ever emanated from an enlightened assembly. They bear strong evidence of the absence of the care and anxiety the late Mr. Alderman Wood was accustomed to bestow upon similar bills, and to whom the public were indebted for his superintendence of several previous Acts, this being a subject to which, with a view to the general benefit, he was in the habit of devoting his best attention. The following are the features of the two Acts last passed, to which it is deemed necessary to direct the public attention, principally with a view to point out the penalties attendant on a violation of their clauses, of which a brief summary is given below. The Act of the 5th and 6th of Victoria, cap. 79. clause 13., in addition to prohibiting a greater number of passengers than the carriage is constructed to contain, defines the space allotted to each to be 16 inches in a straight line, measuring lengthways along the front of the seat.

Clause 16. empowers any Constable, Peace Officer, or Passenger, travelling, or who may have travelled thereby, to measure the seats of any Stage Carriage, in order to ascertain the length thereof, and imposes a Penalty of Five Pounds on any Person refusing, obstructing, or hindering him in so doing.

Of the Act passed August 22, 1843 —

Clause 1. repeals the Act of the 1st and 2d of Victoria, cap. 79.

Clause 7. enacts, that the Proprietor of every Metropolitan Stage Carriage shall keep distinctly painted, both on the outside and inside of the same, the words Metropolitan Stage Carriage, together with the Number of the Stamp Office Plate, and of the Numbers he is licensed to carry, and also a Table of Fares*, to be demanded of Passengers conveyed by such Carriage, and the Fares therein specified shall be deemed to be the only lawful Fares, and may be recovered by the Driver or Conductor, as in

* This is now inscribed on the Stamp Office Plate, fixed on the inside of every Omnibus.

the case of Hackney Carriages in a summary way, before any Justice of the peace; and every Proprietor making default in the Premises shall forfeit the Sum of Twenty Shillings for every Offence.

Clause 10. imposes a Penalty of Five Pounds on Persons acting as Drivers or Conductors without Licenses and Tickets; and of Ten Pounds on Proprietors suffering Drivers or Conductors so to do.

Clause 17. enacts, that every licensed Driver, Conductor, and Waterman, shall at all times during his Employment, and when he shall be required to attend before any Justice of the Peace, wear his Ticket conspicuously on his Breast, in such manner that the whole of the Writing thereon shall be distinctly visible; and every Driver, Conductor, or Waterman, who shall attend when required before any Justice of the Peace, without wearing such Ticket, in manner aforesaid, or who, when thereunto required, shall refuse to produce such Ticket for inspection, or to permit any Person to note the Writing thereon, shall for every such Offence forfeit the Sum of Forty Shillings.

Clause 21. renders it imperative on the Proprietors of Hackney Carriages, and Metropolitan Stage Carriages to retain the Licences of Drivers and Conductors of Carriages in their employment, and produce them in case of Complaint before a Magistrate, when summoned so to do.

Clause 22. empowers Magistrates to hear and determine Complaints.

Clause 25. empowers Magistrates to revoke or suspend Licenses for any Offence committed under this or any other Act, by any Driver, Conductor, or Waterman, that the Magistrate in his discretion may deem entitled to such Punishment.

Clause 28.* " And be it enacted, that every Driver of a Hackney Carriage, or Driver or Conductor of a Metropolitan Stage Carriage, who shall be guilty of wanton or furious Driving, or who by Carelessness or wilful Misbehaviour shall cause any Hurt or Damage to any Person or Property being in any Street or Highway, and also every Driver, Conductor, or Waterman, who during his employment shall be drunk, or shall make use of any insulting or abusive Language, or shall be guilty of any insulting Gesture or any Misbehaviour, shall for every such Offence forfeit the Sum of Three Pounds; or it shall be lawful for the Justice before whom such Complaint shall be brought, if in his Discretion he shall think proper, instead of inflicting such Penalty, forthwith to commit the Offender to Prison for any Period not exceeding Two Calendar Months, with or without Hard Labour, as the Justice shall direct; and in every Case where any such Hurt or Damage shall have been caused, the Justice upon the hearing of the Complaint may adjudge as and for Compensation to any Party ag-

grieved as aforesaid a Sum not exceeding Ten Pounds, and may order the Proprietor of the Hackney Carriage or Metropolitan Stage Carriage, the Driver or Conductor of which shall have caused such Hurt or Damage, forthwith to pay such Sum, and also such Costs as shall have been incurred, and Payment thereof may be enforced against such Proprietor, as any Penalty or Sum of Money may be recovered under and by virtue of this Act; and any Sum which shall be so paid by the Proprietor shall in like manner be recovered in a summary way before a Justice of the Peace from the Driver or Conductor through whose Default such Sum shall have been paid, upon Proof of the Payment thereof, pursuant to the Order of the Justice; or it shall be lawful for the Justice in the first instance to adjudge the Amount of such Compensation to be paid by such Driver or Conductor to the Party aggrieved."

Clause 33. prohibits Drivers or Conductors from loitering or causing any Obstruction, or plying for Hire by making any Noise, under a Penalty of Twenty Shillings.

Clause 34. enacts that all Property left in any Metropolitan Stage Carriage shall be given up to the Conductor, who is within Four Days to deliver it in to the Stamp Office, Somerset House.

Clause 38. enacts, that all Complaints under the Provisions of this Act be made within Seven Days next after the Day on which the Cause of Complaint shall have arisen.

The Editor deems it his duty to add, that the Commissioners in carrying the Act as regards regulation of Fares into execution have improved the method of making them known, and have most effectually seconded the efforts of the Legislature, by causing the Fares to be transcribed upon the Stamp Office Plate, now affixed to the inside of every Omnibus.

To save the reader all trouble of calculation, he will find, by a reference to this table, a ready mode of ascertaining the difference between Coach and Cab Fares; which, calculated at the rate of 1*s.* a mile for the former, are as follow: —

To render this book available upon all occasions, it is respectfully recommended, as constructed with that view, and corresponding in size, that it be permitted to occupy a place in the pocket. The Editor's name, better known than beloved among the brethren of the Whip, will, nevertheless, be acknowledged as an authority, and, if exhibited for that purpose, rarely fail to satisfy the scruples of either the dishonest or doubting Driver.

CAUTIONARY NOTE.

1. Gentlemen whose misfortune it may be to encounter a dispute with any driver, who, in their opinion, may have demanded and obtained more than his legal fare, are respectfully recommended, instead of resorting with impetuous haste to a Police Office, to call upon the Proprietor of this work, who will, if consulted, convince them of the inutility of such application if wrong, and, if right, furnish them, at a very moderate charge, with a correct Certificate of the distance, a document that, exhibited, will, by its relief from further expense, prove extremely serviceable to the possessor.

2. All persons hiring Hackney Carriages are particularly requested to observe, that when called from a stand to take up, the Driver is entitled to charge for that distance, *in addition to his Fare*, unless it shall lay in the way he is going to drive.

3. In any case where a Driver shall demand more than the Fare set down in this work, and that with an earnestness that may induce the party driven to deem him sincere in the conviction of his right thereto, the better way, perhaps, will be to pay the additional sum, and then resort to the proprietor of the book, who will immediately point out the course to be pursued, whenever it shall be deemed advisable to punish the delinquent.

Distances determined, and ground accurately measured by experienced surveyors, in any part of the kingdom.

HACKNEY COACH FARES.

IN printing the Book, two features have been adopted, by way of giving it a distinguished and unerring character. The first is, that the Name of the Street to which the party is desirous to be driven, is printed in Roman, and the second, the Point of the Street to which he must be taken, in *Italic*; as, for instance, Russel Square, *Bernard Street*: where no point is named, as Broadway, Westminster, the nearest Point completes the fare.

A Steam-Boat Companion,

OF PECULIAR INTEREST TO THE PLEASURE TOURIST.

BY EDWARD MOGG,

EDITOR OF "MOGG'S PATERSON'S ROADS."

THE very extensive patronage with which the Proprietor's various Works upon Roads, both Maps and Books, have been honoured, has induced him to submit, for public approbation, the above Map, which, as a WATER ITINERARY, he trusts will succeed in attaining, among the pleasure-taking portion of Nautical Tourists, an equal share of notoriety. Upon its utility it is scarcely necessary to remark; it is, however, respectfully submitted, that a full knowledge of the advantages to be derived from it by the possessor, will readily present themselves upon perusal of the following Observations.

Steam Navigation, aided by the spirited exertions of the Steam Ship Proprietors, many of whose vessels rank among the most splendid specimens of Naval Architecture, whether considered with reference to their nautical superiority or internal equipment, enjoys, as it deserves, a large share of public favour. As at present conducted, it must increase, — the very respectful attention paid by all with whom the public come in contact on board these delightful vessels being universally acknowledged. To render, therefore, these advantages available to the public generally, is one of the leading features of the WATER ITINERARY, which displays upon its surface a vast body of valuable information, as directing attention to the means of communication at present existing between the Outports and the Continent, whereby not merely individuals, but horses, carriages, and whole establishments, in the event of requiring such hasty removal, may be transported with ease, if even at a distance of five hundred miles, in six-and-thirty hours to the Metropolis. A knowledge of these lines must, to the Traveller prove of inestimable value, who, unexposed to the inclemency of the weather, may visit in safety and security, and, at the same time, enjoying the comforts of an hotel — the places pointed out thereon, and which will in vain be sought through any other medium than
